classical hollywood and pop musical genres guiding this project is the concept of slip sync

riffing on the commonplace lip sync phenomenon slip sync refers to moments in the films when the punk performer slips out of sync with the performance spectacle and sometimes the sound track itself engendering a provocative moment of tension this tension frequently serves to illustrate other thematic and narrative conflicts central among these being the punk negotiation between authenticity and inauthenticity laderman emphasizes the strong female lead performer at the center of most of these films as well as each film s engagement with gender and race issues additionally he situates his analyses in relation to the broader cultural and political context of the neo conservatism and new electronic audio visual technologies of the 1980s showing how punk s revolution against the mainstream actually depends upon a certain ironic embrace of pop culture
